

# Sprint Retrospective Report

**Scrum Master:** Jack Jones

**Team Members:** Jack Jones, Andrew Rolfe, Mason Francis, Caleb Jeppson

**What Went Well:** Even though we miscalculated how long this sprint was going to be, we got a decent amount of tasks done this sprint. Our meetings were very effective and were able to communicate well and distribute tasks evenly.

**What Didn't Go Well:** We thought we had two weeks for this sprint instead of one, so we had to get a lot done in one week.

**Improvement Going Forward:** We'll get started earlier so we're not as rushed on time, and communicate a little bit better.

**Measurement Criteria:** To measure how well this sprint went it will depend on the percentage of the tasks we created were finished. We got most of them done so this sprint went fine.
